

John Swan Honours Scholarships

The John Swan Honours Scholarship was introduced to encourage high achieving undergraduate students to continue into chemistry research programs.

To be eligible, applicants must be enrolled as a full-time student in an honours program within the School of Chemistry as of 31 March 2009.

Selection criteria

The John Swan honours scholarships are awarded for academic excellence. More than one is normally awarded. The Scholarships are valued at up to **\$5,000**.

Applications

Applications for the John Swan Scholarships are in the form of a letter of application (addressed to A/Prof Ian McKelvie) and an up-to-date CV (including academic transcript). Please include information on academic performance (awards etc), previous research experience and extracurricular activities (if applicable).

2009 Applications close 30 November 2008.
